DETAILED ACTION

Claims 1-8 are currently pending in the instant application, of which **Claims 4-8** have been amended.

Priority

This application is a 371 of PCT/ES03/00394, filed on 7/29/2003. Receipt of 200201811, filed on 7/31/2002 in Spain, submitted under 35 U.S.C. §§ 119(a)-(d) is acknowledged; which papers have been placed of record in the file. Claim for priority in the Oath is acknowledged.

Information Disclosure Statement

Applicants' information disclosure statement (IDS), filed on January 17, 2006 has been considered. Please refer to Applicants' copy of the 1449 submitted herein.

Specification

The disclosure is objected to because of the following informalities: **Page 2** of the original specification is missing. The specification is the English-translated copy currently on file. Appropriate correction is required.

Claim Objections

Claim 1 is objected to because of the following informalities: the drawing shows that **R₁** forms a bicyclic ring structure and therefore it does not make sense for **R₁** to be H or for **R₂** to be S. Appropriate correction is required.

Claim 2 is objected to because of the following informalities: the drawing shown for **R₅** is incorrect (with respect to **R₅** shown in the original claims). Appropriate correction is required.

Claim Rejections - 35 USC §§ 101 & 112

Claims 7 and 8 provides for *the use of* compounds of the formula I, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 7 and 8 are rejected under 35 U.S.C. § 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. § 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd. App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
